

It is your responsibility to stop Sinclair Broadcasting from showing the anti-Kerry program "Stolen Honor". The only potentially fair information we receive during this election for understanding our presidential candidates is through the debates that have just been completed. The general coverage of these debates is painfully biased towards George W. Bush. To allow a full program directed against John Kerry to be shown as "news" reveals how little we now care about our democracy. The only way that democracy can function is through an informed public. This is the job of the FCC. The air-waves are now dominated by right wing politics. A one sided view destroys a system that we profess to value. How can we claim to be spreading freedom in the world when we no longer have it at home. At a minimum Sinclair would have to show an equally negative program about President Bush. Thank you, Madeline McMurray, Bayside, California
